

DIRECTIONS: Use your annotations to help you write a mini-analysis of and a personal reflection to what you've read. If you need help, refer to the document posted at the top of Google Classroom for model paragraphs!

WRITE A TWO PARAGRAPH REFLECTION BELOW.

1. **ANALYSIS:** One paragraph that reflects on the writer's style. To do that, discuss two different techniques the writer used to create meaning. Your paragraph should look like this:
 - Claim about technique #1, blended and attributed text evidence to support the claim, insightful discussion of the technique and why it's a meaningful choice on the part of the writer. (Elaboration like this should be at least two sentences and should discuss the evidence specifically!). Then do the same for technique #2: claim, evidence, elaboration.
 - Avoid 1st person pronouns
 - Still need help? Check the graphic organizer and/or checklist at the top of Classroom or email me!

2. **RESPONSE:** One paragraph that reflects the reader's thoughts on the content of the article.
 - I want your opinion here on the topic of music & emotions, not on how the article was written. Show me your personality here!
 - It is ok to use first person pronouns in this paragraph!
