

Summer reading conversations -- questions to consider

What did you read and how did you pick that book?

What genre is the book?

What's it about? (Don't spoil it!)

How did you feel about the book? Why?

Was there anything special about the way it was organized or written?

Would you recommend this book? To whom? Why/why not?

Would you read anything else by this author?

Did you read more than one book?

Did you not read a book this summer? Why not?

What kinds of things do you like to read?
